OUR SCHOOL VISION

Our mission is to RECOGNISE the original gifts of our young people, preparing them for SERVICE in the common good for the transformation of society and we aim for academic EXCELLENCE for all, for the sake of the dignity of the individual.

OUR MISSION STATEMENT

Together,
Through our words and actions,
Our work and play,
We point towards Christ
Each and every day

Acceptable Use (Online Safety) POLICY

"Find one person who does what is right and tries to be faithful to God...
the Lord will forgive".
(Jer 5:1)

This Policy has been approved and adopted by the Governing Body in September 2025 and will be reviewed in September 2028

Signed by Chair of Governors:_____

Date:

Signed by Headteacher: C Whalley _____

Date: 29/9/25

Date	Reason & Changes Made	By
4/9/25	Policy Review Cycle	Catherine Whatley Headteacher

Scope of the Acceptable Use Policy

This Policy outlines the commitment of St John the Baptist Catholic School to safeguard members of our school community online in accordance with statutory guidance and best practice.

This Acceptable Use Policy applies to all members of the school community (including staff, learners, governors, volunteers, parents and carers, visitors, community users) who have access to and are users of school digital systems, both in and out of the school. It also applies to the use of personal digital technology on the school site (where allowed).

St John the Baptist Catholic Primary School will deal with such incidents within this policy and associated behaviour and anti-bullying policies and will, where known, inform parents/carers of incidents of inappropriate Acceptable Use behaviour that take place out of school.

Process for monitoring the impact of the Acceptable Use Policy

The school will monitor the impact of the policy using:

- logs of reported incidents
- Filtering and monitoring logs
- internal monitoring data for network activity
- surveys/questionnaires of:
    - learners
    - staff

Policy and leadership

Responsibilities

To ensure the online safeguarding of members of our school community it is important that all members of that community work together to develop safe and responsible online behaviours, learning from each other and from good practice elsewhere, reporting inappropriate online behaviours, concerns, and misuse as soon as these become apparent. While this will be a team effort, the following sections outline the Acceptable Use roles and responsibilities of individuals and groups within the school.

Headteacher and senior leaders

- The headteacher has a duty of care for ensuring the safety (including Acceptable Use) of members of the school community and fostering a culture of safeguarding, though the day-

to-day responsibility for Acceptable Use is held by the Designated Safeguarding Lead, as defined in Keeping Children Safe in Education.

- The headteacher and senior leadership team should be aware of the procedures to be followed in the event of a serious Acceptable Use allegation being made against a member of staff.
- The headteacher/senior leaders are responsible for ensuring that the Designated Safeguarding Lead, Computing Lead and other relevant staff carry out their responsibilities effectively and receive suitable training to enable them to carry out their roles and train other colleagues, as relevant.
- The headteacher/senior leaders will ensure that there is a system in place to allow for monitoring and support of those in school who carry out the internal Acceptable Use monitoring role.
- The headteacher/senior leaders will receive regular monitoring reports from the Designated Safeguarding Lead / Computing Lead.
- The headteacher/senior leaders will work with the responsible Governor, the designated safeguarding lead (DSL) and IT service providers in all aspects of filtering and monitoring.

Governors

The DfE guidance "Keeping Children Safe in Education" states:

> "Governing bodies and proprietors should ensure there are appropriate policies and procedures in place in order for appropriate action to be taken in a timely manner to safeguard and promote children's welfare …. this includes … Acceptable Use"
>
> "Governing bodies and proprietors should ensure an appropriate senior member of staff, from the school or college leadership team, is appointed to the role of designated safeguarding lead. The designated safeguarding lead should take lead responsibility for safeguarding and child protection (including Acceptable Use and understanding the filtering and monitoring systems and processes in place)"

Governors are responsible for the approval of the Acceptable Use Policy and for reviewing the effectiveness of the policy.

This review will be carried out by the safeguarding governor who will receive regular information about Acceptable Use incidents and monitoring reports. A member of the governing body will take on the role of Safeguarding/Acceptable Use Governor to include:

- regular meetings with the Designated Safeguarding Lead
- regularly receiving (collated and anonymised) reports of Acceptable Use incidents
- checking that provision outlined in the Acceptable Use Policy (e.g. Acceptable Use education provision and staff training is taking place as intended)
- Ensuring that the filtering and monitoring provision is reviewed and recorded, at least annually. (The review will be conducted by members of the HT and the IT service provider

and involve the responsible governor) - in-line with the DfE Filtering and Monitoring Standards
- reporting to the full governing body
- Receiving (at least) basic cyber-security training to enable the governors to check that the school meets the DfE Cyber-Security Standards

The governing body will also support the school in encouraging parents/carers and the wider community to become engaged in Acceptable Use activities.

Designated Safety Lead (DSL)

Keeping Children Safe in Education states that:

> *"The designated safeguarding lead should take lead responsibility for safeguarding and child protection (including Acceptable Use and understanding the filtering and monitoring systems and processes in place). This should be explicit in the role holder's job description."*
>
> *They (the DSL) "are able to understand the unique risks associated with Acceptable Use and be confident that they have the relevant knowledge and up to date capability required to keep children safe whilst they are online at school or college"*
>
> *They (the DSL) "*can recognise the additional risks that children with special educational needs and disabilities (SEND) face online, for example, from bullying, grooming and radicalisation and are confident they have the capability to support children with SEND to stay safe online"

The DSL will:

- hold the lead responsibility for Acceptable Use, within their safeguarding role.
- Receive relevant and regularly updated training in Acceptable Use to enable them to understand the risks associated with Acceptable Use and be confident that they have the relevant knowledge and up to date capability required to keep children safe whilst they are online
- meet regularly with the safeguarding governor to discuss current issues, review (anonymised) incidents and filtering and monitoring logs and ensuring that annual (at least) filtering and monitoring checks are carried out
- attend relevant governing body meetings/groups
- be responsible for receiving reports of Acceptable Use incidents and handling them and deciding whether to make a referral by liaising with relevant agencies, ensuring that all incidents are recorded.
- liaise with staff and IT providers on matters of safety and safeguarding and welfare (including online and digital safety)
- receive reports of Acceptable Use issues, being aware of the potential for serious child protection concerns and ensure that these are logged to inform future Acceptable Use developments

- have a leading role in establishing and reviewing the school Acceptable Use policies/documents
- promote an awareness of and commitment to Acceptable Use education / awareness raising across the school and beyond
- liaise with curriculum leaders to ensure that the Acceptable Use curriculum is planned, mapped, embedded and evaluated
- ensure that all staff are aware of the procedures that need to be followed in the event of an Acceptable Use incident taking place and the need to immediately report those incidents
- provide (or identify sources of) training and advice for staff/governors/parents/carers/learners
- receive regularly updated training to allow them to understand how digital technologies are used and are developing (particularly by learners) with regard to the areas defined In Keeping Children Safe in Education:
    - content
    - contact
    - conduct
    - commerce

Curriculum Leads

Curriculum Leads will work with the DSL to develop a planned and coordinated Acceptable Use education programme.

This will be provided through:

- SJB Safeguarding Curriculum
- RHSE programme
- assemblies
- through relevant national initiatives and opportunities e.g. Safer Internet Day and Anti-bullying week.

Teaching and support staff

School staff are responsible for ensuring that:

- they have an awareness of current Acceptable Use matters/trends and of the current school Acceptable Use Policy and practices
- they understand that Acceptable Use is a core part of safeguarding
- they have read, understood, and signed the staff acceptable use agreement (AUA)
- they follow all relevant guidance and legislation including, for example, Keeping Children Safe in Education and UK GDPR regulations
- all digital communications with learners, parents and carers and others should be on a professional level and only carried out using official school systems and devices (where staff use AI, they should only use school-approved AI services for work purposes)
- they immediately report any suspected misuse or problem to DSL for investigation/action, in line with the school safeguarding procedures
- Acceptable Use issues are embedded in all aspects of the curriculum and other activities

- ensure learners understand and follow the Acceptable Use Policy and acceptable use agreements, have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- they supervise and monitor the use of digital technologies, mobile devices, cameras, etc., in lessons and other school activities (where allowed) and implement current policies regarding these devices
- in lessons where internet use is pre-planned learners are guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches (minimise screen and report)
- where lessons take place using live-streaming or video-conferencing, there is regard to national safeguarding guidance and local safeguarding policies
- there is a zero-tolerance approach to incidents of online-bullying, sexual harassment, discrimination, hatred etc
- they model safe, responsible, and professional online behaviours in their own use of technology, including out of school and in their use of social media.
- they adhere to the school's GDRP policy and Code of Conduct, with regard to the use of devices, systems and passwords and have an understanding of basic cybersecurity
- they have a general understanding of how the learners in their care use digital technologies out of school, in order to be aware of Acceptable Use issues that may develop from the use of those technologies
- they are aware of the benefits and risks of the use of Artificial Intelligence (AI) services in school, being transparent in how they use these services, prioritising human oversight. AI should assist, not replace, human decision-making. Staff must ensure that final judgments, particularly those affecting people, are made by humans, fact-checked and critically evaluated.

IT Provider

The DfE Filtering and Monitoring Standards says:

> "Senior leaders should work closely with governors or proprietors, the designated safeguarding lead (DSL) and IT service providers in all aspects of filtering and monitoring. Your IT service provider may be a staff technician or an external service provider."
>
> "Day to day management of filtering and monitoring systems requires the specialist knowledge of both safeguarding and IT staff to be effective. The DSL should work closely together with IT service providers to meet the needs of your setting. You may need to ask filtering or monitoring providers for system specific training and support."
>
> "The IT service provider should have technical responsibility for:
>
> - maintaining filtering and monitoring systems

- providing filtering and monitoring reports
- completing actions following concerns or checks to systems"

"The IT service provider should work with the senior leadership team and DSL to:

- procure systems
- identify risk
- carry out reviews
- carry out checks"

"We are aware that there may not be full-time staff for each of these roles and responsibility may lie as part of a wider role within the school, college, or trust. However, it must be clear who is responsible, and it must be possible to make prompt changes to your provision."

The IT Provider is responsible for ensuring that:

- they are aware of and follow the school Acceptable Use Policy and Technical Security Policy to carry out their work effectively in line with school policy
- the school technical infrastructure is secure and is not open to misuse or malicious attack
- the school meets (as a minimum) the required Acceptable Use technical requirements as identified by the DfE Meeting Digital and Technology Standards in Schools & Colleges and guidance from local authority.
- there is clear, safe, and managed control of user access to networks and devices
- they keep up to date with Acceptable Use technical information in order to effectively carry out their Acceptable Use role and to inform and update others as relevant
- the use of technology is regularly and effectively monitored in order that any misuse/attempted misuse can be reported to DSL for investigation and action
- the filtering policy is applied and updated on a regular basis and its implementation is not the sole responsibility of any single person.
- monitoring systems are implemented and regularly updated as agreed in school policies

Learners

- are responsible for using the school digital technology systems in accordance with the learner acceptable use agreement and Acceptable Use Policy
- should understand the importance of reporting abuse, misuse or access to inappropriate materials and know how to do so
- should know what to do if they or someone they know feels vulnerable when using online technology.
- should understand the importance of adopting good Acceptable Use practice when using digital technologies out of school and realise that the school's Acceptable Use Policy covers their actions out of school, if related to their membership of the school.

Parents and carers

Parents and carers play a crucial role in ensuring that their children understand the need to use the online services and devices in an appropriate way.

The school will take every opportunity to help parents and carers understand these issues through:

- publishing the school Acceptable Use Policy on the school website
- providing them with a copy of the learners' acceptable use agreement
- publish information about appropriate use of social media relating to posts concerning the school.
- seeking their permissions concerning digital images, cloud services etc
- parents'/carers' evenings, newsletters, website, social media and information about national/local Acceptable Use campaigns and literature.

Parents and carers will be encouraged to support the school in:

- reinforcing the Acceptable Use messages provided to learners in school.

Community users

Community users who access school systems/website/learning platform as part of the wider school provision will be expected to sign a community user AUA before being provided with access to school systems.

Professional Standards

There is an expectation that professional standards will be applied to Acceptable Use as in other aspects of school life i.e.

- there is a consistent emphasis on the central importance of literacy, numeracy, digital competence and digital resilience. Learners will be supported in gaining skills across all areas of the curriculum and every opportunity will be taken to extend learners' skills and competence
- there is a willingness to develop and apply new techniques to suit the purposes of intended learning in a structured and considered approach and to learn from the experience, while taking care to avoid risks that may be attached to the adoption of developing technologies e.g. Artificial Intelligence (AI) tools.
- Staff are able to reflect on their practice, individually and collectively, against agreed standards of effective practice and affirm and celebrate their successes
- policies and protocols are in place for the use of online communication technology between the staff and other members of the school and wider community, using officially sanctioned school mechanisms.

Policy

Acceptable Use Policy

The DfE guidance "Keeping Children Safe in Education" states:

> "Acceptable Use and the school or college's approach to it should be reflected in the child protection policy"

The school Acceptable Use Policy:

- sets expectations for the safe and responsible use of digital technologies for learning, administration, and communication
- allocates responsibilities for the delivery of the policy
- is regularly reviewed in a collaborative manner, taking account of Acceptable Use incidents and changes/trends in technology and related behaviours
- establishes guidance for staff in how they should use digital technologies responsibly, protecting themselves and the school and how they should use this understanding to help safeguard learners in the digital world
- describes how the school will help prepare learners to be safe and responsible users of online technologies
- establishes clear procedures to identify, report, respond to and record the misuse of digital technologies and Acceptable Use incidents, including external support mechanisms
- is supplemented by a series of related acceptable use agreements
- is made available to staff at induction and through normal communication channels (weekly briefing, emails)
- is published on the school website.

Acceptable use

The school has defined what it regards as acceptable/unacceptable use, and this is shown in the tables below.

The Acceptable Use Policy and acceptable use agreements define acceptable use at the school. The acceptable use agreements will be communicated/re-enforced through:

- staff induction
- posters/notices around where technology is used
- communication with parents/carers
- built into education sessions
- school website

User actions		Acceptable	Acceptable at certain times	Acceptable for nominated users	Unacceptable	Unacceptable and illegal
Users shall not access online content (including apps, games, sites) to make, post, download, upload, data transfer, communicate or pass on, material, remarks, proposals or comments that contain or relate to:	**Any illegal activity for example:** • Child sexual abuse imagery* • Child sexual abuse/exploitation/grooming • Terrorism • Encouraging or assisting suicide • Offences relating to sexual images i.e., revenge and extreme pornography • Incitement to and threats of violence • Hate crime • Public order offences - harassment and stalking • Drug-related offences • Weapons / firearms offences • Fraud and financial crime including money laundering Staff should refer to guidance about dealing with self-generated images/sexting – UKSIC Responding to and managing sexting incidents and UKCIS – Sexting in schools and colleges					X
Users shall not undertake activities that might be classed as cyber-crime under the Computer Misuse Act (1990)	• Using another individual's username or ID and password to access data, a program, or parts of a system that the user is not authorised to access (even if the initial access is authorised) • Gaining unauthorised access to school networks, data and files, through the use of computers/devices • Creating or propagating computer viruses or other harmful files • Revealing or publicising confidential or proprietary information (e.g., financial / personal information, databases, computer / network access codes and passwords) • Disable/Impair/Disrupt network functionality through the use of computers/devices • Using penetration testing equipment (without relevant permission) Serious or repeat offences may be reported to the police. The National Crime Agency has a remit to prevent learners becoming involved in cyber-					X

User actions		Acceptable	Acceptable at certain times	Acceptable for nominated users	Unacceptable	Unacceptable and illegal
	crime and harness their activity in positive ways– further information here					
Users shall not undertake activities that are not illegal but are classed as unacceptable in school policies:	Accessing inappropriate material/activities online in a school setting including pornography, gambling, drugs. (Informed by the school's filtering practices and/or AUAs)			X		
	Promotion of any kind of discrimination				X	
	Using school systems to run a private business				X	
	Using systems, applications, websites or other mechanisms that bypass the filtering/monitoring or other safeguards employed by the school				X	
	Infringing copyright and intellectual property (including through the use of AI services)				X	
	Unfair usage (downloading/uploading large files that hinders others in their use of the internet)			X	X	
	Any other information which may be offensive to others or breaches the integrity of the ethos of the school or brings the school into disrepute				X	

User Actions	Staff and other adults				Learners			
	Not allowed	Allowed	Allowed at certain times	Allowed for selected staff	Not allowed	Allowed	Allowed at certain times	Allowed with staff permission/awa
Online gaming								

Online shopping/commerce								
File sharing								
Social media								
Messaging/chat								
Entertainment streaming e.g. Netflix, Disney+								
Use of video broadcasting, e.g. YouTube, Twitch, TikTok								
Mobile phones may be brought to school								X
Use of mobile phones for learning at school								
Use of mobile phones in social time at school								
Taking photos on mobile phones/cameras								
Use of other personal devices, e.g. tablets, gaming devices								
Use of personal e-mail in school, or on school network/wi-fi								
Use of school e-mail for personal e-mails								
Use of AI services that have not been approved by the school								

When using communication technologies, the school considers the following as good practice:

- when communicating in a professional capacity, staff should ensure that the technologies they use are officially sanctioned by the school.

- any digital communication between staff and learners or parents/carers (e-mail, learning platform, etc.) must be professional in tone and content. Personal e-mail addresses, text messaging or social media must not be used for these communications.
- staff are expected to follow good practice when using personal social media regarding their own professional reputation and that of the school and its community
- users should immediately report to a nominated person – in accordance with the school policy – the receipt of any communication that makes them feel uncomfortable, is offensive, discriminatory, threatening or bullying in nature and must not respond to any such communication.
- relevant policies and permissions should be followed when posting information online e.g., school website and social media. Only school e-mail addresses should be used to identify members of staff and learners.

Reporting and responding

The 2021 Ofsted "Review of Sexual Abuse in Schools and Colleges" highlighted the need for schools to understand that reporting systems do not always respond to the needs of learners. While the report looks specifically at harmful sexual behaviours, schools may wish to address these issues more generally in reviewing their reporting systems. The Ofsted review suggested:

> *"School and college leaders should create a culture where sexual harassment and online sexual abuse are not tolerated, and where they identify issues and intervene early to better protect children and young people. ..In order to do this, they should assume that sexual harassment and online sexual abuse are happening in their setting, even when there are no specific reports, and put in place a whole-school approach to address them. This should include:*
>
> - *routine record-keeping and analysis of sexual harassment and sexual violence, including online, to identify patterns and intervene early to prevent abuse"*

The school will take all reasonable precautions to ensure Acceptable Use for all school users but recognises that incidents may occur inside and outside of the school (with impact on the school) which will need intervention. The school will ensure:

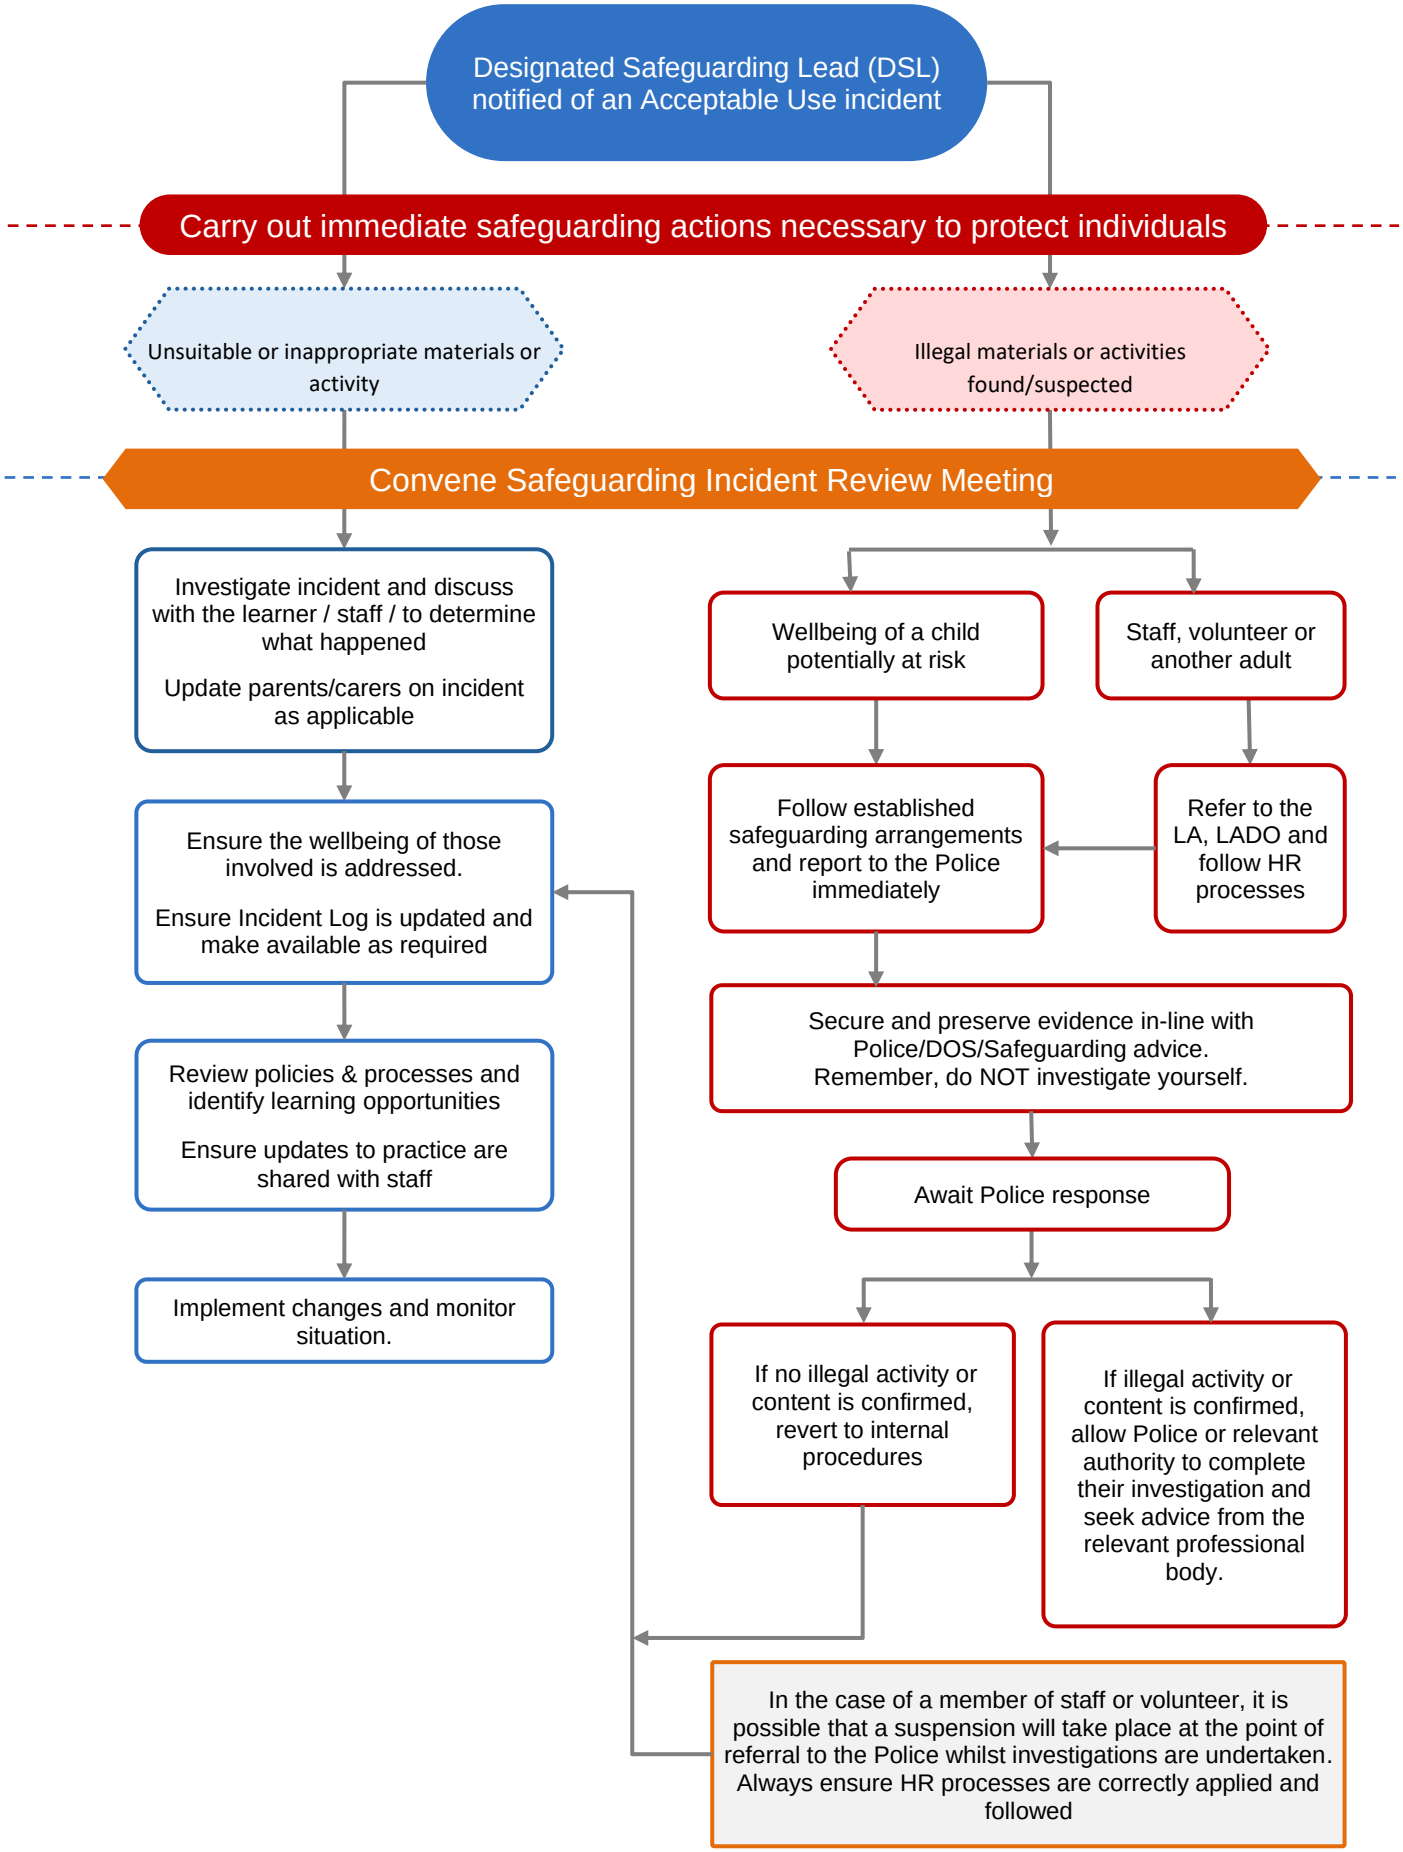
- there are clear reporting routes which are understood and followed by all members of the school community which are consistent with the school safeguarding procedures, and with the whistleblowing, complaints and managing allegations policies.
- all members of the school community will be made aware of the need to report Acceptable Use issues/incidents
- reports will be dealt with as soon as is practically possible once they are received
- the Designated Safeguarding Lead, Acceptable Use Lead and other responsible staff have appropriate skills and training to deal with Acceptable Use risks.
- if there is any suspicion that the incident involves any illegal activity or the potential for serious harm (see flowchart and user actions chart in the appendix), the incident must be escalated through the agreed school safeguarding procedures, this may include

    - Non-consensual images
    - Self-generated images
    - Terrorism/extremism
    - Hate crime/ Abuse
    - Fraud and extortion
    - Harassment/stalking
    - Child Sexual Abuse Material (CSAM)
    - Child Sexual Exploitation Grooming
    - Extreme Pornography
    - Sale of illegal materials/substances
    - Cyber or hacking offences under the Computer Misuse Act
    - Copyright theft or piracy

- any concern about staff misuse will be reported to the Headteacher, unless the concern involves the Headteacher, in which case the complaint is referred to the Chair of Governors
- where there is no suspected illegal activity, devices may be checked using the following procedures:
    - one or more senior members of staff should be involved in this process. This is vital to protect individuals if accusations are subsequently reported.
    - conduct the procedure using a designated device that will not be used by learners and, if necessary, can be taken off site by the police should the need arise (should illegal activity be subsequently suspected). Use the same device for the duration of the procedure.
    - ensure that the relevant staff have appropriate internet access to conduct the procedure, but also that the sites and content visited are closely monitored and recorded (to provide further protection).
    - record the URL of any site containing the alleged misuse and describe the nature of the content causing concern. It may also be necessary to record and store screenshots of the content on the machine being used for investigation. These may be printed, signed, and attached to the form
    - once this has been completed and fully investigated the group will need to judge whether this concern has substance or not. If it does, then appropriate action will be required and could include the following:

    - internal response or discipline procedures
    - involvement by local authority
    - police involvement and/or action
- it is important that those reporting an Acceptable Use incident have confidence that the report will be treated seriously and dealt with effectively
- there are support strategies in place e.g., peer support for those reporting or affected by an Acceptable Use incident
- incidents should be logged on CPOMS
- relevant staff are aware of external sources of support and guidance in dealing with Acceptable Use issues, e.g. local authority; police; Reporting Harmful Content; CEOP.
- those involved in the incident will be provided with feedback about the outcome of the investigation and follow up actions
- learning from the incident (or pattern of incidents) will be provided (as relevant and anonymously) to:
    - *staff, through weekly briefings*
    - *learners, through assemblies/lessons*
    - *parents/carers, through newsletters, website, emails*
    - *governors, through regular safeguarding updates*
    - *local authority/external agencies, as relevant*

The school will make the flowchart below available to staff to support the decision-making process for dealing with Acceptable Use incidents.



Designated Safeguarding Lead (DSL) notified of an Acceptable Use incident
Carry out immediate safeguarding actions necessary to protect individuals
Unsuitable or inappropriate materials or activity
Illegal materials or activities found/suspected
Convene Safeguarding Incident Review Meeting
Investigate incident and discuss with the learner / staff / to determine what happened
Update parents/carers on incident as applicable
Ensure the wellbeing of those involved is addressed.
Ensure Incident Log is updated and make available as required
Review policies & processes and identify learning opportunities
Ensure updates to practice are shared with staff
Implement changes and monitor situation.
Wellbeing of a child potentially at risk
Staff, volunteer or another adult
Follow established safeguarding arrangements and report to the Police immediately
Refer to the LA, LADO and follow HR processes
Secure and preserve evidence in-line with Police/DOS/Safeguarding advice. Remember, do NOT investigate yourself.
Await Police response
If no illegal activity or content is confirmed, revert to internal procedures
If illegal activity or content is confirmed, allow Police or relevant authority to complete their investigation and seek advice from the relevant professional body.
In the case of a member of staff or volunteer, it is possible that a suspension will take place at the point of referral to the Police whilst investigations are undertaken. Always ensure HR processes are correctly applied and followed

School actions

It is more likely that the school will need to deal with incidents that involve inappropriate rather than illegal misuse. It is important that any incidents are dealt with as soon as possible in a proportionate manner, and that members of the school community are aware that incidents have been dealt with. It is intended that incidents of misuse will be dealt with through normal behaviour/disciplinary procedures as follows:

Responding to Learner Actions

Incidents	Refer to class teacher	Refer to Deputy Head	Refer to Headteacher	Refer to Police/Social Work	Refer to local authority technical support for advice/action	Inform parents/carers	Remove device/ network/internet access	Issue a warning	Further sanction, in line with behaviour policy
Deliberately accessing or trying to access material that could be considered illegal (see list in earlier section on User Actions on unsuitable/inappropriate activities).		X	X	X					X
Attempting to access or accessing the school network, using another user's account (staff or learner) or allowing others to access school network by sharing username and passwords		X	X			X	X		X
Corrupting or destroying the data of other users.		X	X		X	X	X		
Sending an e-mail, text or message that is regarded as offensive, harassment or of a bullying nature	X							X	X
Unauthorised downloading or uploading of files or use of file sharing.		X	X		X	X	X		X
Using proxy sites or other means to subvert the school's filtering system.			X		X	X	X		X
Accidentally accessing offensive or pornographic material and failing to report the incident.			X		X			X	X

Deliberately accessing or trying to access offensive or pornographic material.			X	X	X		X		X
Receipt or transmission of material that infringes the copyright of another person or infringes the Data Protection Act.		X	X		X			X	X
Unauthorised use of digital devices (including taking images)		X	X					X	X
Unauthorised use of online services		X	X					X	X
Actions which could bring the school into disrepute or breach the integrity or the ethos of the school.			X		X			X	X
Continued infringements of the above, following previous warnings or sanctions.			X				X	X	X

Responding to Staff Actions

Incidents	Refer to line manager	Refer to Headteacher	Refer to local authority/HR	Refer to Police	Refer to LA / Technical Support Staff for action re filtering, etc.	Issue a warning	Suspension	Disciplinary action
Deliberately accessing or trying to access material that could be considered illegal (see list in earlier section on unsuitable / inappropriate activities)		X	X	X	X	X	X	X
Actions which breach data protection or network / cyber-security rules.		X	X		X	X	X	X
Deliberately accessing or trying to access offensive or pornographic material		X	X		X	X	X	X
Corrupting or destroying the data of other users or causing deliberate damage to hardware or software		X	X		X	X	X	X
Using proxy sites or other means to subvert the school's filtering system.		X	X		X	X	X	X
Unauthorised downloading or uploading of files or file sharing		X	X		X	X	X	X
Breaching copyright/ intellectual property or licensing regulations (including through the use of AI systems)		X	X		X	X	X	X
Allowing others to access school network by sharing username and passwords or attempting to access or accessing the school network, using another person's account.		X	X		X	X	X	X

Sending an e-mail, text or message that is regarded as offensive, harassment or of a bullying nature		X	X			X	X	X
Using personal e-mail/social networking/messaging to carry out digital communications with learners and parents/carers		X	X			X	X	X
Inappropriate personal use of the digital technologies e.g. social media / personal e-mail		X	X			X	X	X
Careless use of personal data, e.g. displaying, holding or transferring data in an insecure manner		X	X			X	X	X
Actions which could compromise the staff member's professional standing		X	X			X	X	X
Actions which could bring the school into disrepute or breach the integrity or the ethos of the school.		X	X			X	X	X
Failing to report incidents whether caused by deliberate or accidental actions		X	X			X	X	
Continued infringements of the above, following previous warnings or sanctions.		X	X			X	X	X

The use of Artificial Intelligence (AI) systems in School

As Generative Artificial Intelligence (gen AI) continues to advance and influence the world we live in , its role in education is also evolving. There are currently 3 key dimensions of AI use in schools: learner support, teacher support and school operations; ensuring all use is safe, ethical and responsible is essential.

We realise that there are risks involved in the use of Gen AI services, but that these can be mitigated through our existing policies and procedures, amending these as necessary to address the risks.

We will educate staff and learners about safe and ethical use of AI, preparing them for a future in which these technologies are likely to play an increasing role.

The safeguarding of staff and learners will, as always, be at the forefront of our policy and practice.

Policy Statements

- The school acknowledges the potential benefits of the use of AI in an educational context - including enhancing learning and teaching, improving outcomes, improving administrative processes, reducing workload and preparing staff and learners for a future in which AI technology will be an integral part. Staff are encouraged to use AI based tools to support their work where appropriate, within the frameworks provided below and are required to be professionally responsible and accountable for this area of their work.
- We will comply with all relevant legislation and guidance, with reference to guidance contained in Keeping Children Safe in Education and UK GDPR
- We will provide relevant training for staff and governors in the advantages, use of and potential risks of AI. We will support staff in identifying training and development needs to enable relevant opportunities.
- As set out in the staff acceptable use agreement, staff will be supported to use AI tools responsibly, ensuring the protection of both personal and sensitive data. Staff should only input anonymised data to avoid the exposure of personally identifiable or sensitive information.
- Staff will always ensure AI tools used comply with UK GDPR and other data protection regulations. They must verify that tools meet data security standards before using them for work related to the school.
- Only those AI technologies approved by the school may be used. Staff should always use school-provided AI accounts for work purposes. These accounts are configured to comply with organisational security and oversight requirements, reducing the risk of data breaches.
- We will protect sensitive information. Staff must not input sensitive information, such as internal documents or strategic plans, into third-party AI tools unless explicitly vetted for that purpose. They must always recognise and safeguard sensitive data.
- The school will ensure that when AI is used, it will not infringe copyright or intellectual property conventions – care will be taken to avoid intellectual property, including that of the learners, being used to train generative AI models without appropriate consent.
- AI incidents must be reported promptly. Staff must report any incidents involving AI misuse, data breaches, or inappropriate outputs immediately to the relevant internal teams. Quick reporting helps mitigate risks and facilitates a prompt response.
- The school will audit all AI systems in use and assess their potential impact on staff, learners and the school's systems and procedures, creating an AI inventory listing all tools in use, their purpose and potential risks.
- We are aware of the potential risk for discrimination and bias in the outputs from AI tools and have in place interventions and protocols to deal with any issues that may arise. When procuring and implementing AI systems, we will follow due care and diligence to prioritise fairness and safety.
- AI tools may be used to assist teachers in the assessment of learners' work, identification of areas for improvement and the provision of feedback.
- We will prioritise human oversight. AI should assist, not replace, human decision-making. Staff must ensure that final judgments, particularly those affecting people, are made by humans and critically evaluate AI-generated outputs. They must ensure that all AI-generated

content is fact-checked and reviewed for accuracy before sharing or publishing. This is especially important for external communication to avoid spreading misinformation.

- Recourse for improper use and disciplinary procedures. Improper use of AI tools, including breaches of data protection standards, misuse of sensitive information, or failure to adhere to this agreement, will be subject to disciplinary action as defined in Staff Disciplinary Policy.

Acceptable Use Education Programme

While regulation and technical solutions are particularly important, their use must be balanced by educating learners to take a responsible approach. The education of learners in Acceptable Use is therefore an essential part of the school's Acceptable Use provision. Learners need the help and support of the school to recognise and avoid Acceptable Use risks and develop their resilience.

The 2021 Ofsted "Review of Sexual Abuse in Schools and Colleges" highlighted the need for:

> *"a carefully sequenced RSHE curriculum, based on the Department for Education's (DfE's) statutory guidance, that specifically includes sexual harassment and sexual violence, including online. This should include time for open discussion of topics that children and young people tell us they find particularly difficult, such as consent and the sending of 'nudes."*

Keeping Children Safe in Education states:

> "*Governing bodies and proprietors should ensure Acceptable Use is a running and interrelated theme whilst devising and implementing their whole school or college approach to safeguarding and related policies and procedures. This will include considering how Acceptable Use is reflected as required in all relevant policies and considering Acceptable Use whilst planning the curriculum ...*"

Acceptable Use should be a focus in all areas of the curriculum and staff should reinforce Acceptable Use messages across the curriculum. The Acceptable Use curriculum should be broad, relevant and provide progression, with opportunities for creative activities and will be provided in the following ways

- Lessons are matched to need; are age-related and build on prior learning
- Lessons are context-relevant with agreed objectives leading to clear and evidenced outcomes
- Learner need and progress are addressed through effective planning and assessment
- Digital competency is planned and effectively threaded through the appropriate digital pillars in other curriculum areas e.g. RHSE, English, etc
- it incorporates/makes use of relevant national initiatives and opportunities e.g. Safer Internet Day and Anti-bullying week
- the programme will be accessible to learners at different ages and abilities such as those with additional learning needs or those with English as an additional language.

- learners should be taught in all lessons to be critically aware of the materials/content they access online and be guided to validate the accuracy of information (including where the information is gained from Artificial Intelligence services)
- learners should be helped to understand the need for the learner acceptable use agreement and encouraged to adopt safe and responsible use both within and outside school.
- staff should act as good role models in their use of digital technologies the internet and mobile devices
- in lessons where internet use is pre-planned, it is best practice that learners should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches
- where learners are allowed to freely search the internet, staff should be vigilant in supervising the learners and monitoring the content of the websites / tools (including AI systems) the learners visit

Contribution of Learners

The school acknowledges, learns from, and uses the skills and knowledge of learners in the use of digital technologies. We recognise the potential for this to shape the Acceptable Use strategy for the school community and how this contributes positively to the personal development of young people. Their contribution is recognised through:

- learner feedback and opinion.
- appointment of computing ambassadors
- learners contribute to the Acceptable Use education programme e.g. computing ambassadors leading lessons for younger learners,

Staff/volunteers

The DfE guidance "Keeping Children Safe in Education" states:

> "All staff should receive appropriate safeguarding and child protection training (including Acceptable Use) at induction. The training should be regularly updated. In addition, all staff should receive safeguarding and child protection (including Acceptable Use) updates (for example, via email, e-bulletins, and staff meetings), as required, and at least annually, to continue to provide them with relevant skills and knowledge to safeguard children effectively."
>
> "Governing bodies and proprietors should ensure… that safeguarding training for staff, including Acceptable Use training, is integrated, aligned and considered as part of the whole school or college safeguarding approach and wider staff training and curriculum planning."

All staff will receive Acceptable Use training and understand their responsibilities, as outlined in this policy. Training will be offered as follows:

- the training will be an integral part of the school's annual safeguarding, data protection and cyber-security training for all staff
- all new staff will receive Acceptable Use training as part of their induction programme, ensuring that they fully understand the school Acceptable Use policy and acceptable use agreements. It includes explicit reference to classroom management, professional conduct, online reputation and the need to model positive online behaviours.
- the Designated Safeguarding Lead will receive regular updates through attendance at external training events, (e.g. LA / other relevant organisations) and by reviewing guidance documents released by relevant organisations
- this Acceptable Use Policy and its updates will be presented to and discussed by staff in staff meetings/INSET days
- the Designated Safeguarding Lead will provide advice/guidance/training to individuals as required.

Governors

Governors should take part in Acceptable Use training/awareness sessions. This may be offered in several ways such as:

- attendance at training provided by the local authority or other relevant organisation
- participation in school training / information sessions for staff or parents

A higher level of training will be made available to (at least) the Safeguarding Governor. This will include:

- Cyber-security training (at least at a basic level)
- Training to allow the governor to understand the school's filtering and monitoring provision, in order that they can participate in the required checks and reviews.

Families

The school will seek to provide information and awareness to parents and carers through:

- regular communication, awareness-raising and engagement on Acceptable Use issues, curriculum activities and reporting routes
- the learners – who are encouraged to pass on to parents the Acceptable Use messages they have learned in lessons and by learners leading sessions at parent/carer evenings.
- letters, newsletters, website, learning platform,
- high profile events / campaigns e.g. Safer Internet Day
- reference to the relevant web sites/publications, e.g. SWGfL; www.saferinternet.org.uk/; www.childnet.com/parents-and-carers (see Appendix for further links/resources).

Adults and Agencies

The school will provide opportunities for local community groups and members of the wider community to gain from the school's Acceptable Use knowledge and experience. This may be offered through the following:

- Acceptable Use messages targeted towards families and relatives.
- providing Acceptable Use information via their website and social media for the wider community

Technology

The DfE Filtering and Monitoring Standards states that "**Your IT service provider may be a staff technician or an external service provider".** Oakford is the school external technology provider; it is the responsibility of the school to ensure that the provider carries out all the Acceptable Use and security measures that would otherwise be the responsibility of the school. It is also important that the technology provider is fully aware of the school Acceptable Use Policy/acceptable use agreements and the school has a Data Processing Agreement in place with them.

The school is responsible for ensuring that the school infrastructure/network is as safe and secure as is reasonably possible and that policies and procedures approved within this policy are implemented. The school should ensure that all staff are made aware of policies and procedures in place on a regular basis and explain that everyone is responsible for Acceptable Use and data protection

Filtering & Monitoring

The DfE guidance (for England) on filtering and monitoring in "Keeping Children Safe in Education" states:

> "It is essential that governing bodies and proprietors ensure that appropriate filtering and monitoring systems are in place …governing bodies and proprietors should be doing all that they reasonably can to limit children's exposure to the … risks from the school's or college's IT system. As part of this process, governing bodies and proprietors should ensure their school or college has appropriate filtering and monitoring systems in place and regularly review their effectiveness. They should ensure that the leadership team and relevant staff have an awareness and understanding of the provisions in place and manage them effectively and know how to escalate concerns when identified…
>
> The appropriateness of any filtering and monitoring systems are a matter for individual schools and colleges and will be informed in part, by the risk assessment required by the Prevent Duty. To support schools and colleges to meet this duty, the Department for Education has published filtering and monitoring standards…"

The school filtering and monitoring provision is agreed by senior leaders, governors and the IT Service Provider and is regularly reviewed (at least annually) and updated in response to changes in technology and patterns of Acceptable Use incidents/behaviours

Day to day management of filtering and monitoring systems requires the specialist knowledge of both safeguarding and IT staff to be effective. The DSL will have lead responsibility for safeguarding and Acceptable Use and the IT service provider will have technical responsibility

The filtering and monitoring provision is reviewed termly by senior leaders, the Designated Safeguarding Lead and a governor with the involvement of the IT Service Provider.

- checks on the filtering and monitoring system are carried out by the IT Service Provider with the involvement of a senior leader, the Designated Safeguarding Lead and a governor, in particular when a safeguarding risk is identified, there is a change in working practice, e.g. remote access or BYOD or new technology is introduced

Filtering

The DfE Technical Standards for Schools and Colleges states:

"Schools and colleges have a statutory responsibility to keep children and young people safe online as well as offline. Governing bodies and proprietors should make sure their school or college has appropriate filtering and monitoring systems in place, as detailed in the statutory guidance, Keeping children safe in education.

Filtering is preventative. It refers to solutions that protect users from accessing illegal, inappropriate and potentially harmful content online. It does this by identifying and blocking specific web links and web content in the form of text, images, audio and video

These standards help school and college leaders, designated safeguarding leads and IT support understand how to work together to make sure they can effectively safeguard their students and staff."

- a member of the SLT and a governor, are responsible for ensuring these standards are met. Roles and responsibilities of staff and third parties, for example, in-house or third-party IT support are clearly defined
- the school manages access to content across its systems for all users and on all devices using the school's internet provision. The filtering provided meets the standards defined in the DfE Filtering standards for schools and colleges and the guidance provided in the UK Safer Internet Centre Appropriate filtering.

- illegal content (e.g., child sexual abuse images) is filtered by the broadband or filtering provider by actively employing the Internet Watch Foundation URL list and the police assessed list of unlawful terrorist content, produced on behalf of the Home Office. Content lists are regularly updated
- there are established and effective routes for users to report inappropriate content, recognising that no system can be 100% effective. These are acted upon in a timely manner, within clearly established procedures
- there is a clear process in place to deal with, and log, requests/approvals for filtering changes
- filtering logs are regularly reviewed and alert the Designated Safeguarding Lead to breaches of the filtering policy, which are then acted upon.
- There are regular checks of the effectiveness of the filtering systems . Checks are undertaken across a range of devices at least termly and the results recorded and analysed to inform and improve provision. The DSL and Governor are involved in the process and aware of the findings.
- Devices that are provided by the school have school-based filtering applied irrespective of their location.
- the school has a mobile phone policy and where personal mobile devices have internet access through the school network, content is managed in ways that are consistent with school policy and practice.
- access to content through non-browser services (e.g. apps and other mobile technologies) is managed in ways that are consistent with school policy and practice.

Monitoring

The DfE Technical Standards for Schools and Colleges states:

"Monitoring is reactive. It refers to solutions that monitor what users are doing on devices and, in some cases, records this activity. Monitoring can be manual, for example, teachers viewing screens as they walk around a classroom. Technical monitoring solutions rely on software applied to a device that views a user's activity. Reports or alerts are generated based on illegal, inappropriate, or potentially harmful activities, including bullying. Monitoring solutions do not block users from seeing or doing anything."

The school has monitoring systems in place, agreed by senior leaders and technical staff, to protect the school, systems and users:

- The school monitors all network use across all its devices and services.
- monitoring reports are urgently picked up, acted on and outcomes are recorded by the Designated Safeguarding Lead, all users are aware that monitoring is in place.
- There are effective protocols in place to report abuse/misuse. There is a clear process for prioritising response to alerts that require rapid safeguarding intervention.
- Management of serious safeguarding alerts is consistent with safeguarding policy and practice.

- The monitoring provision is reviewed at least once every academic year and updated in response to changes in technology and patterns of Acceptable Use incidents and behaviours. The review should be conducted by members of the senior leadership team, the designated safeguarding lead, and technical staff. It will also involve the responsible governor. The results of the review will be recorded and reported as relevant.

- Devices that are provided by the school have school-based monitoring applied irrespective of their location.
- monitoring enables alerts to be matched to users and devices.

Technical Security

The school technical systems will be managed in ways that ensure that the school meets recommended standards in the DfE Technical Standards for Schools and Colleges:

- responsibility for technical security resides with SLT who may delegate activities to identified roles.
- A documented access control model is in place, clearly defining access rights to school systems and devices. This is reviewed annually. All users (staff and learners) have responsibility for the security of their username and password and must not allow other users to access the systems using their log on details. Users must immediately report any suspicion or evidence that there has been a breach of security
- password policy and procedures are implemented and are consistent with guidance from the National Cyber Security Centre
- all school networks, devices and system will be protected by secure passwords.
- the administrator passwords for school systems are kept in a secure place
- there is a risk-based approach to the allocation of learner usernames and passwords.
- there will be regular reviews and audits of the safety and security of school technical systems
- servers, wireless systems and cabling are securely located and physical access restricted
- appropriate security measures are in place (schools may wish to provide more detail which may need to be provided by the service provider) to protect the servers, firewalls, routers, wireless systems and devices from accidental or malicious attempts which might threaten the security of the school systems and data. These are tested regularly. The school infrastructure and individual workstations are protected by up-to-date endpoint software.
- there are rigorous and verified back-up routines, including the keeping of network-separated (air-gapped) copies off-site or in the cloud,
- an appropriate system is in place for users to report any actual/potential technical incident/security breach to the relevant person, as agreed)
- use of school devices out of school and by family members is regulated by an acceptable use statement that a user consents to when the device is allocated to them
- personal use of any device on the school network is regulated by acceptable use statements that a user consents to when using the network

- staff members are not permitted to install software on a school-owned devices without the consent of the SLT/IT service provider
- systems are in place to control and protect personal data and data is encrypted at rest and in transit.
- guest users are provided with appropriate access to school systems based on an identified risk profile.
- systems are in place that prevent the unauthorised sharing of personal / sensitive data unless safely encrypted or otherwise secured.
- Care will be taken when using Artificial Intelligence services to avoid the input of sensitive information, such as personal data, internal documents or strategic plans, into third-party AI systems unless explicitly vetted for that purpose. Staff must always recognise and safeguard sensitive data.
- dual-factor authentication is used for sensitive data or access outside of a trusted network
- where AI services are used for technical security, their effectiveness is regularly reviewed, updated and monitored for vulnerabilities.

Mobile technologies

The DfE guidance "Keeping Children Safe in Education" states:

> "The school or college should have a clear policy on the use of mobile and smart technology. Amongst other things this will reflect the fact many children have unlimited and unrestricted access to the internet via mobile phone networks (i.e. 3G, 4G and 5G). This access means some children, whilst at school or college, sexually harass, bully, and control others via their mobile and smart technology, share indecent images consensually and non-consensually (often via large chat groups) and view and share pornography and other harmful content. Schools and colleges should carefully consider how this is managed on their premises and reflect this in their mobile and smart technology policy and their child protection policy.

Mobile technology devices may be school owned/provided or personally owned and might include smartphone, tablet, wearable devices, notebook/laptop or other technology that usually has the capability of utilising the school's wireless network. The device then has access to the wider internet which may include the school learning platform and other cloud-based services such as e-mail and data storage.

All users should understand that the primary purpose of the use of mobile/personal devices in a school context is educational. The mobile technologies policy should be consistent with and inter-related to other relevant school polices including but not limited to those for safeguarding, behaviour, anti-bullying, acceptable use, and policies around theft or malicious damage. Teaching about the safe and appropriate use of mobile technologies should be an integral part of the school's Acceptable Use education programme.

In preparing a mobile technologies policy the school should consider possible issues and risks. These may include:

- security risks in allowing connections to your school network
- filtering of personal devices
- breakages and insurance
- access to devices for all learners
- avoiding potential classroom distraction
- network connection speeds, types of devices
- charging facilities
- total cost of ownership.

The school acceptable use agreements for staff, learners, parents, and carers outline the expectations around the use of mobile technologies.

The school allows:

	School devices			**Personal devices**		
	School owned for individual use	School owned for multiple users	Authorised device	Student owned	Staff owned	Visitor owned
Allowed in school	Yes	Yes	Yes	No	Yes	Yes
Full network access	Yes	Yes	Yes	No	No	No
Internet only	Yes	Yes	Yes	No	Yes	Yes
No network access	Yes	Yes	Yes	No	Yes	Yes

School owned/provided devices:

- all school devices are managed though the use of Mobile Device Management software
- there is an asset log that clearly states whom a device has been allocated to. There is clear guidance on where, when and how use is allowed
- personal use (e.g. online banking, shopping, images etc.) is clearly defined and expectations are well-communicated.
- the use of devices on trips/events away from school is clearly defined and expectation are well-communicated.
- liability for damage aligns with current school policy for the replacement of equipment.
- education is in place to support responsible use.

Personal devices:

- there is a clear policy covering the use of personal mobile devices on school premises for all users
- use of personal devices for school business is defined in the acceptable use policy, staff handbook and mobile phone policy. Personal devices commissioned onto the school network are segregated effectively from school-owned systems
- taking/storing/using images/video is strictly prohibited on personal devices. The non-consensual taking/using of images of others is not permitted.
- liability for loss/damage or malfunction of personal devices is with the owner
- there is clear advice and guidance at the point of entry for visitors to acknowledge school requirements

Social media

Expectations for teachers' professional conduct are set out in the DfE Teachers Standards but all adults working with children and young people must understand that the nature and responsibilities of their work place them in a position of trust and that their conduct should reflect this.

All schools and local authorities have a duty of care to provide a safe learning environment for learners and staff. Schools could be held responsible, indirectly for acts of their employees in the course of their employment. Staff members who harass, bully online, discriminate on the grounds

of sex, race, or disability or who defame a third party may render the school liable to the injured party. Reasonable steps to prevent predictable harm must be in place.

The school provides the following measures to ensure reasonable steps are in place to minimize risk of harm to learners through:

- ensuring that personal information is not published.
- education/training being provided including acceptable use, age restrictions, social media risks, digital and video images policy, checking of settings, data protection and reporting issues.
- clear reporting guidance, including responsibilities, procedures, and sanctions.
- risk assessment, including legal risk.
- guidance for learners, parents/carers

School staff should ensure that:

- No reference should be made in social media to learners, parents/carers or school staff.
- they do not engage in online discussion on personal matters relating to members of the school community.
- personal opinions should not be attributed to the school.
- security settings on personal social media profiles are regularly checked to minimize risk of loss of personal information.
- they act as positive role models in their use of social media

When official school social media accounts are established, there should be:

- a process for approval by senior leaders
- clear processes for the administration, moderation, and monitoring of these accounts – involving at least two members of staff
- a code of behaviour for users of the accounts
- systems for reporting and dealing with abuse and misuse
- understanding of how incidents may be dealt with under school disciplinary procedures.

Personal use

- personal communications are those made via personal social media accounts. In all cases, where a personal account is used which associates itself with, or impacts on, the school it must be made clear that the member of staff is not communicating on behalf of the school with an appropriate disclaimer. Such personal communications are within the scope of this policy
- personal communications which do not refer to or impact upon the school are outside the scope of this policy
- where excessive personal use of social media in school is suspected, and considered to be interfering with relevant duties, disciplinary action may be taken

Monitoring of public social media

- As part of active social media engagement, the school may pro-actively monitor the Internet for public postings about the school.

- the school should effectively respond to social media comments made by others according to a defined policy or process.
- when parents/carers express concerns about the school on social media we will urge them to make direct contact with the school, in private, to resolve the matter. Where this cannot be resolved, parents/carers should be informed of the school complaints procedure.

School use of social media for professional purposes will be checked regularly by a senior leader and the safeguarding lead to ensure compliance with the social media, data protection, communications, digital image and video policies. In the event of any social media issues that the school is unable to resolve support may be sought from the school's legal department.

Digital and video images

The development of digital imaging technologies has created significant benefits to learning, allowing staff and learners instant use of images that they have recorded themselves or downloaded from the internet. However, staff, parents/carers and learners need to be aware of the risks associated with publishing digital images on the internet. Such images may provide avenues for online bullying to take place. Digital images may remain available on the internet forever and may cause harm or embarrassment to individuals in the short or longer term. It is common for employers to carry out internet searches for information about potential and existing employees.

The school will inform and educate users about these risks and will implement policies to reduce the likelihood of the potential for harm

- the school may use live-streaming or video-conferencing services in line with national and local safeguarding guidance / policies.
- when using digital images, staff will inform and educate learners about the risks associated with the taking, use, sharing, publication and distribution of images.
- staff/volunteers must be aware of those learners whose images must not be taken/published. Those images should only be taken on school devices. The personal devices of staff should not be used for such purposes
- in accordance with guidance from the Information Commissioner's Office, parents/carers are welcome to take videos and digital images of their children at school events for their own personal use (as such use in not covered by the Data Protection Act). To respect everyone's privacy and in some cases protection, these images should not be published/made publicly available on social networking sites, nor should parents/carers comment on any activities involving other *learners* in the digital/video images
- staff and volunteers are allowed to take digital/video images to support educational aims, but must follow school policies concerning the sharing, storage, distribution and publication of those images
- care should be taken when sharing digital/video images that learners are appropriately dressed

- learners must not take, use, share, publish or distribute images of others without their permission
- photographs published on the website, or elsewhere that include learners will be selected carefully and will comply with Acceptable Use Policy
- learners' full names will not be used anywhere on a website or blog, particularly in association with photographs.
- written permission from parents or carers will be obtained before photographs of learners are taken for use in school or published on the school website/social media. Permission is not required for images taken solely for internal purposes
- parents/carers will be informed of the purposes for the use of images, how they will be stored and for how long – in line with the school data protection policy
- images will be securely stored in line with the school retention policy

Online Publishing

The school communicates with parents/carers and the wider community and promotes the school through

- Public-facing website
- Online newsletters
- Parent apps (Arbor, Juniper Education)

The school website is managed/hosted by Primary Site. The school ensures that Acceptable Use policy has been followed in the use of online publishing e.g., use of digital and video images, copyright, identification of young people, publication of school calendars and personal information – ensuring that there is least risk to members of the school community, through such publications.

Where learner work, images or videos are published, their identities are protected, and full names are not published.

Cyber Security

The DfE Cyber security standards for schools and colleges explains:

> "Cyber incidents and attacks have significant operational and financial impacts on schools and colleges. These incidents or attacks will often be an intentional and unauthorised attempt to access, change or damage data and digital technology. They could be made by a person, group, or organisation outside or inside the school or college and can lead to:
>
> - safeguarding issues due to sensitive personal data being compromised
> - impact on student outcomes
> - a significant data breach

    - significant and lasting disruption, including the risk of repeated future cyber incidents and attacks, including school or college closure
    - financial loss
    - reputational damage"

- the school has reviewed the DfE Cyber security standards for schools and colleges and is working toward meeting these standards
- the school will conduct a cyber risk assessment annually
- the school, (in partnership with Oakford), has identified the most critical parts of the school's digital and technology services and sought assurance about their cyber security
- the school has an effective backup and restoration plan in place in the event of cyber attacks
- the school's governance and IT policies reflect the importance of good cyber security
- staff and Governors receive training on the common cyber security threats and incidents that schools experience
- the school's education programmes include cyber awareness for learners
- the school has a business continuity and incident management plan in place
- there are processes in place for the reporting of cyber incidents. All students and staff have a responsibility to report cyber risk or a potential incident or attack, understand how to do this feel safe and comfortable to do so.

Outcomes

The impact of the Acceptable Use Policy and practice is regularly evaluated through the review/audit of Acceptable Use incident logs; behaviour/bullying reports; surveys of staff, learners; parents/carers and is reported to relevant groups:

- there is balanced professional debate about the evidence taken from the reviews/audits and the impact of preventative work e.g., Acceptable Use education, awareness, and training
- there are well-established routes to regularly report patterns of Acceptable Use incidents and outcomes to school leadership and Governors
- parents/carers are informed of patterns of Acceptable Use incidents as part of the school's Acceptable Use awareness raising
- Acceptable Use (and related) policies and procedures are regularly updated in response to the evidence gathered from these reviews/audits/professional debate
- the evidence of impact is shared with other schools, agencies and LAs to help ensure the development of a consistent and effective local Acceptable Use strategy.

Appendix

Copies of the more detailed template policies and agreements, contained in the appendix, can be found in the links and resources section of the relevant aspects in the 360safe self-review tool and online on the SWGfL website. The appendices are as follows:

A1 - Learner Acceptable Use Agreement– KS2

A2 - Learner Acceptable Use Agreement– for younger learners (Foundation/KS1)

A3 - Parent/Carer Acceptable Use Agreement

A4 - Staff (and Volunteer) Acceptable Use Policy Agreement

A5 - Community Users Acceptable Use Agreement

A6 - Record of reviewing devices/internet sites (responding to incidents of misuse)

A7 - Reporting Log

B1 - Training Needs Audit Log

Legislation

Links to other organisations and resources

Glossary of Terms

Appendix A1 - Learner Acceptable Use Agreement – for KS2

This acceptable use agreement is intended:

- to ensure that learners will have good access to devices and online content, be responsible users and stay safe while using digital technologies for educational, personal and recreational use
- to help learners understand good online behaviours that they can use in school, but also outside school
- to protect school devices and networks from accidental or deliberate misuse that could put the security of the systems and users at risk.

Acceptable Use Agreement

I agree to use the school's digital systems safely and responsibly to protect me, other learners and the school.

Keeping Safe Online

- The school will check how I use devices and the internet to keep everyone safe.
- I will keep my usernames and passwords private and tell a trusted adult if someone else knows them.
- I will be careful when talking to people online and will only talk to people I know and trust.
- I will not share personal information like my name, address, or photos without asking a trusted adult.
- I will only take or share images of myself, or others, when fully dressed.
- If I see or hear something online that worries or upsets me, I will tell a trusted adult straight away.
- I will only meet people I have spoken to online if a trusted adult is with me.

Using Computers and the Internet Sensibly

- I will only use devices, apps and sites that I am allowed to, and will check if I am unsure.
- I will always ask permission and check with a trusted adult before using someone else's work or pictures.
- I will make sure the information I find online is true by checking carefully.
- I will only use apps or tools, like AI, that my teacher has said are OK, and I will ask for help if I'm unsure.
- I will not copy or use music, videos, or games unless I have permission.

- I will tell a trusted adult about any damage to devices or if anything else goes wrong.
- I will check with trusted adults before clicking on any unexpected messages or links (even if these look as though they are from people that I already know).

Being Respectful and Responsible

- I will treat others kindly online, just as I do in real life.
- I will make good choices about what I share online to protect myself and others.
- I will spend a healthy amount of time using devices and make time for other activities too.
- I will always think about how my behaviour online could affect me, my friends, and my school.

What Happens If I Break These Rules

- If I don't follow these rules, my teacher may stop me from using computers or devices, speak to my parents, or take other actions to help me make better choices in the future.

By following these rules, I can enjoy using technology safely and responsibly.

I have read and understand the above and agree to follow these guidelines when:

- I use the school systems and devices (both in and out of school)
- I use my own devices in the school (when allowed) e.g. mobile phones, gaming devices USB devices, cameras etc.
- I am out of school and involved in any online behaviour that might affect the school or other members of the school.

Name of Learner: ..... Group/Class: .....

Signed: ..... Date: .....

A2 Learner Acceptable Use Agreement – for younger learners (Early Years/KS1)

Our Technology Rules

I will follow these rules to use computers, tablets and the internet safely at school.

Staying Safe

- My teacher will watch what I do on computers, tablets and the internet to keep me safe.
- I will keep my passwords secret and tell my teacher if I need help.
- I understand that people online are not always who they say they are. I will only talk to people online if my teacher or a trusted adult says it's OK.
- I will not share my name, address, or pictures without asking my teacher or a trusted adult first.
- If I see something that makes me feel worried or upset, I will tell my teacher or a trusted adult straight away.
- I will only use apps, games or websites my teacher says are safe.

Using Technology Kindly

- I will be kind when using technology, just like I am in real life.
- I will take care of the computers and tablets I use.
- I will only look at things my teacher says are OK.

Making Good Choices

- I will ask my teacher before I use someone else's pictures or work.
- I will take breaks from screens and do other fun things too.
- I know that I can say no / please stop to anyone online who makes me feel sad, uncomfortable, embarrassed or upset.
- I will ask for help from a trusted adult if I am not sure what to do or if I think I may have done something wrong.

What Happens If I Forget the Rules

- If I forget the rules, my teacher will help me learn to make better choices next time.

These rules help us all stay safe and have fun using computers and tablets at school!

A3 Parent/Carer Acceptable Use Agreement Template

Digital technologies have become integral to the lives of children and young people, both within schools and outside school. These technologies provide powerful tools, which open new opportunities for everyone. They can stimulate discussion, promote creativity, and stimulate awareness of context to promote effective learning. Young people should have an entitlement to safe internet access at all times.

This acceptable use policy is intended to ensure:

- that young people will be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use.
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- that parents and carers are aware of the importance of Acceptable Use and are involved in the education and guidance of young people with regard to their on-line behaviour.

The school will try to ensure that learners have good access to digital technologies to enhance their learning and will, in return, expect the learners to agree to be responsible users. A copy of the learner acceptable use agreement is attached to this permission form, so that parents/carers will be aware of the school expectations of the young people in their care.

Parents are requested to sign the permission form below to show their support of the school in this important aspect of the school's work.

Permission Form

Parent/Carers Name: .....

Learner Name: .....

As the parent/carer of the above learners, I give permission for my son/daughter to have access to the digital technologies at school.

Signed: .....

Date: .....

Use of Digital/Video Images

The use of digital/video images plays an important part in learning activities. Learners and members of staff may use digital cameras to record evidence of activities in lessons and out of school. These images may then be used in presentations in subsequent lessons.

Images may also be used to celebrate success through their publication in newsletters, on the school website and occasionally in the public media. Where an image is publicly shared by any means, your child's name will not be used.

The school will comply with the Data Protection Act and request parent's/carer's permission before taking images of members of the school. We will also ensure that when images are published that the young people cannot be identified by the use of their names.

In accordance with guidance from the Information Commissioner's Office, parents/carers are welcome to take videos and digital images of their children at school events for their own personal use (as such use in not covered by the Data Protection Act). To respect everyone's privacy and in some cases protection, these images should not be published/made publicly available on social networking sites, nor should parents/carers comment on any activities involving other learners in the digital/video images.

Parents/carers are requested to sign the permission form below to allow the school to take and use images of their children and for the parents/carers to agree.

Digital/Video Images Permission Form

Parent/Carers Name:..... Learner Name:.....

As the parent/carer of the above learner, I agree to the school taking digital/video images of my child/children.	Yes/No
I agree to these images being used:	
• to support learning activities.	Yes/No
• in publicity that reasonably celebrates success and promotes the work of the school.	Yes/No
Insert statements here that explicitly detail where images are published by the schools	Yes/No

I agree that if I take digital or video images at, or of school events which include images of children, other than my own, I will abide by these guidelines in my use of these images.	Yes/No

Signed: .....

A4 Staff (and Volunteer) Acceptable Use Agreement

School Policy

Digital technologies have become integral to the lives of everyone, including children and young people, both within schools and in their lives outside school. The internet and digital technologies are powerful tools, which can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. They also bring opportunities for staff to be more creative and productive in their work. The school has the right to protect itself and its systems and all users should have an entitlement to safe access to the internet and digital technologies at all times.

This acceptable use policy is intended to ensure:

- that staff and volunteers will be responsible users and stay safe while online and using digital technologies for educational, personal and recreational use
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk
- that staff are protected from potential risk in their use of technology in their everyday work.

The school will try to ensure that staff and volunteers will have good access to digital technology to enhance their work, to enhance learning opportunities and will, in return, expect staff and volunteers to agree to be responsible users.

Acceptable Use Policy Agreement

I understand that I must use school systems in a responsible way, to minimise the risk to the safety, privacy or security of the school community and its systems. I acknowledge the potential of digital technologies for enhancing learning and will endeavour to integrate them in a way that aligns with the school's policy, ethos and values.

For my professional and personal safety:

- I understand that the school will monitor my use of school devices and digital technology systems
- I understand that the rules set out in this agreement also apply to use of these devices and technologies out of school, and to the transfer of personal / sensitive data (digital or paper based) out of the school
- I understand that the school devices and digital technology systems are primarily intended for educational use and that I will only use them for personal or recreational use within relevant school policies. .
- I will not disclose my username or password to anyone else, nor will I try to use any other person's username and password.
- I will store my passwords securely and in line with the school's relevant security policy.

- I will immediately report any illegal, inappropriate or harmful material or incident, I become aware of, to the appropriate person.

I will be professional in my communications and actions when using digital technologies and systems:

- I will not access, copy, remove or otherwise alter any other user's files, without their express permission.
- I will communicate with others in a professional manner. I will not use aggressive or inappropriate language and I appreciate that others may have different opinions.
- I will ensure that when I take and/or publish images of others I will do so with their permission and in accordance with the school's policy on the use of digital/video images, and taking account of parental permissions. I will not use my personal equipment to record these images, unless I have permission to do so. Where these images are published (e.g. on the school website) it will not be possible to identify by name, or other personal information, those who are featured.
- I will only use social networking sites in the school in accordance with school policies.
- I will only communicate with learners and parents/carers using official school systems. Any such communication will be professional in tone and manner.
- I will not engage in any online activity that may compromise my professional responsibilities.

The school has the responsibility to provide safe and secure access to technologies and ensure the smooth running of the school:

- I will abide by all relevant guidance and legislation (e.g., Keeping Children Safe in Education / UK GDPR)
- I will ensure that I am aware of cyber-security risks and that I will not respond to any communications that might put my / school data or systems at risk from attack
- When using AI systems in my professional role I will use these responsibly and:
  - will only use AI technologies approved by the school
  - will be aware of the risks of bias and discrimination, critically evaluating the outputs of AI systems for such risks
  - to protect personal and sensitive data, I will ensure that I have explicit authorisation when uploading sensitive school-related information into AI systems
  - will take care not to infringe copyright or intellectual property conventions – care will be taken to avoid intellectual property, including that of the learners, being used to train generative AI models without appropriate consent.
  - ensure that documents, emails, presentations, and other outputs influenced by AI include clear labels or notes indicating AI assistance
  - critically evaluate AI-generated outputs to ensure that all AI-generated content is fact-checked and reviewed for accuracy before sharing or publishing
  - will use generative AI tools responsibly to create authentic and beneficial content, ensuring respect for individuals' identity and well-being
- *When I use my personal mobile devices in school, I will follow the rules set out by the school, in the same way as if I was using school equipment. I will ensure that any such devices are protected by up to date anti-virus / anti-malware software and are free from viruses.*

- *When communicating in a professional capacity, I will only use technology and systems sanctioned by the school.*
- *I will not use personal accounts on school systems.*
- I will exercise informed safe and secure practice when accessing links to content from outside of my organisation to reduce the risk of cyber security threats.
- I will ensure that my data is regularly backed up, in accordance with relevant school policies.
- I will not access illegal, inappropriate or harmful content on school systems.
- I will not bypass any filtering or security systems that are used to prevent access to such content.
- I will not install or attempt to install unauthorised programmes of any type on a school device , nor will I try to alter device settings, unless this is allowed in school policies
- I will not disable or cause any damage to school equipment, or the equipment belonging to others.
- I will only transport, hold, disclose or share personal information about myself or others, as outlined in the school Data Security Policy (or other relevant policy). Where digital personal data is transferred outside the secure local network, it must be encrypted. Paper based documents containing personal data must be held in lockable storage.
- I understand that the data protection policy requires that any staff or learner data to which I have access, will be kept private and confidential, except when it is deemed necessary that I am required by law or by school policy to disclose such information to an appropriate authority.
- I will immediately report any damage or faults involving equipment or software, however this may have happened.

When using the internet in my professional capacity or for school sanctioned personal use:

- I will ensure that I have appropriate permissions to use the original work of others in my own work and will reflect this with appropriate acknowledgements, particularly where AI has been used to generate content
- Where content is protected by copyright, I will not download or distribute copies (including music and videos).

I understand that I am responsible for my actions in and out of the school:

- I understand that this acceptable use agreement applies to my use of digital technologies related to my professional responsibilities , within or outside of the school.
- I will ensure my use of technologies and platforms is in line with the school's agreed codes of conduct.
- I understand that if I fail to comply with this acceptable use agreement, I could be subject to disciplinary action. This could include a warning, a suspension, referral to Governors and/or the Local Authority / Trust in the event of illegal activities, the involvement of the Police.

I have read and understand the above and agree to use the school digital technology systems (both in and out of the school) and my own devices (in the school and when carrying out communications related to the school) within these guidelines.

Staff/Volunteer Name: .....

Signed: .....

Date: .....

A5 Acceptable Use Agreement for Community Users

This acceptable use agreement is intended to ensure:

- that community users of school digital technologies will be responsible users and stay safe while using these systems and devices
- that school systems, devices and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- that users are protected from potential harm in their use of these systems and devices

Acceptable Use Agreement

I understand that I must use school systems and devices in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the systems, devices and other users. This agreement will also apply to any personal devices that I bring into the school:

- I understand that my use of school systems and devices will be monitored
- I will not use a personal device that I have brought into school for any activity that would be inappropriate in a school setting.
- I will not try to upload, download or access any materials which are illegal (child sexual abuse images, criminally racist material, terrorist and extremist material, adult pornography covered by the Obscene Publications Act) or inappropriate or may cause harm or distress to others. I will not try to use any programmes or software that might allow me to bypass the filtering/security systems in place to prevent access to such materials.
- I will immediately report any illegal, inappropriate or harmful material or incident, I become aware of, to the appropriate person.
- I will not access, copy, remove or otherwise alter any other user's files, without permission.
- I will ensure that if I take and/or publish images of others I will only do so with their permission. I will not use my personal equipment to record these images, without permission. If images are published it will not be possible to identify by name, or other personal information, those who are featured.
- I will not publish or share any information I have obtained whilst in the school on any personal website, social networking site or through any other means, unless I have permission from the school.
- I will not, without permission, make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work.
- I will not install or attempt to install programmes of any type on a school device, nor will I try to alter computer settings, unless I have permission to do so.
- I will not disable or cause any damage to school equipment, or the equipment belonging to others.
- I will immediately report any damage or faults involving equipment or software, whatever the cause.
- I will ensure that I have permission to use the original work of others in my own work
- Where work is protected by copyright, I will not download or distribute copies (including music and videos).
- I understand that if I fail to comply with this acceptable use agreement, the school has the right to remove my access to school systems/devices

I have read and understand the above and agree to use the school systems (both in and out of school) and my own devices (in school and when carrying out communications related to the school) within these guidelines.
